From the Chair of the Planning and Zoning Commission

Citizens of the Village of Volente;

We are looking forward to your attending our public hearing on the proposed zoning ordinance at the Village offices on Thursday, May 5th at 6:30.

Planning and Zoning's goal in editing and creating this proposed document was to retain the integrity of the original document and many amendments that have been made over the past thirteen years and combine them, along with necessary changes, to create a user friendly Zoning Ordinance. We feel this document will better serve the needs of today and the future needs of our village.

We posted last week a clean copy of our proposed ordinance and a redline copy. We wanted to be as informative and transparent as possible to the citizens, therefore we felt also releasing the redline of our work was the best tool to furnish you. Please compare these documents and create a list of your questions for us to address on Thursday. Our City Attorney and Engineer will be present to assist.

Kind Regards,

Richard Roucloux
